

Protect the Ground. Divert the Waste.

Big Bad Mats support your **ESG and bid-compliance** goals — a durable, recyclable, non-leaching ground interface that protects sensitive ecosystems and shrinks lifecycle footprint.

 100% RECYCLABLE MATERIAL	 0 HYDROCARBON LEACHING	 10+ yrs REUSE BEFORE END-OF-LIFE
---	---	---

CIRCULAR MATERIAL

- ✓ **100% recyclable** HDPE construction.
- ✓ Reused across **many project cycles**.
- ✓ **Reclaimed & re-milled** at end of life.
- ✓ Diverts mats from **landfill**.

SOIL & WATER PROTECTION

- ✓ **Non-porous** — zero fluid absorption.
- ✓ **No hydrocarbon leaching** into soils.
- ✓ Protects **wetlands & sensitive habitat**.
- ✓ **SWPPP-compatible** ground cover.

LOWER LIFECYCLE FOOTPRINT

- ✓ **Fewer assets** manufactured & shipped.
- ✓ **Zero replacements** = zero re-manufacture.
- ✓ Reduced **haul & disposal** trips.
- ✓ Longer life → **lower embodied carbon**.

WHY IT MATTERS TO YOUR BID

Compliance: attach to EPCM & enterprise ESG submittals.

Liability: non-leach surface reduces remediation exposure.

Reporting: quantify landfill diversion & reuse cycles.

Need ESG documentation for your submittal?
