

BoneDry

High-Performance Encapsulating Absorbent

up to 5*

LIGHTER THAN CLAY

Non-leach

ENCAPSULATES HYDROCARBONS

Silica-free

NO CRYSTALLINE SILICA

Reusable*

SWEEP & RE-APPLY

PHYSICAL & MATERIAL

Form	Free-flowing granular sorbent
Base	Organic / cellulosic media
Bulk density	Ultralight vs mineral clay
Color	Natural / light
Packaging	Jugs, 3 lb bags, 2 ft ³ bags, drums, super sacks

PERFORMANCE

Absorbs	Oil, fuel, hydrocarbons & fluids
Water (HC grade)	Repels water – absorbs oil only
Encapsulation	Locks hydrocarbons to reduce leaching
Surface finish	Non-slip, residue-free
Recovery	Sweep / shovel & bag

APPLICATION

Surfaces	Hard floors, ground, water (HC)
Use	Maintenance, fueling, rapid response
Handling	Non-abrasive, equipment-safe
Kits	Socks, booms, portable & full spill kits

SAFETY & HANDLING

Toxicity	Non-toxic, non-carcinogenic
Silica	No free crystalline silica
Storage	Dry, ambient
SDS	Available on request

ENVIRONMENTAL & COMPLIANCE

✓	Encapsulates hydrocarbons to reduce leaching into soils & water
✓	Lighter loads reduce disposal weight & hauling
✓	Non-toxic, silica-free — safer crew handling
✓	Supports SPCC & spill-readiness programs

CONFIGURATIONS

BoneDry All	Oil & water-based on hard surfaces	Mixed spill types
BoneDry HC	Absorbs oil, not water	Wet environments
BoneDry H2O	Solidifies water-based cuttings	Drilling / HDD
BoneDry SC	Spent caustic & odor control	Refining / process
BoneDry Crime	Biofluid cleanup	Facilities / transit
Containment	Booms, socks & kits	Readiness / water-adjacent
